

DISTRICT MANAGER

District Manager Guide

How to keep your district moving in SRM Tools.

What you maintain

Six things you own across your district every week. None take long — but they only work if they happen on the cadence below.

- 01

Submit the District Manager Report

Reports → My Reports → District Manager Report.
- 02

Review your district's submissions

Reports → Review.
- 03

Watch the Daily Plan emails

Your inbox · cc on every plant's plan in your district.
- 04

Run one-on-ones from the task list

List · filter by responsible role = Plant Manager or by plant.
- 05

Track plant performance from Statistics

Operations → Statistics.
- 06

Stay current on operator changes

People → Operators.

Cadence

Daily	Skim each plant's Daily Plan email. Triage anything that looks off before load-out.
Weekly	Submit the District Manager Report (Mon–Sat recaps). Review every plant's PM Report and Plant Efficiency R
Ongoing	Pull task lists for 1:1s. Track Statistics rollups. Watch operator-roster changes.

01

Submit the District Manager Report

Every week — six daily recap fields. Mon / Tue / Wed / Thu / Fri / Sat, all required, all textareas. The DM report is the only first-person account leadership reads of what happened in your district that week.

Where: Reports → My Reports → District Manager Report.

1. Open Reports. The card sits in your My Reports queue every Monday morning.
2. Fill each day's recap as the week unfolds — don't batch it Friday afternoon.
3. Cover: yardage notes, operator issues, equipment problems, customer escalations.
4. Submit by your General Manager's cutoff.

District Manager Report

Daily recaps for the week · all six required

MONDAY RECAP

407 ran 412 hrs, 1 lost load (truck issue),
408 down 2 mixers in shop, 410 normal.

TUESDAY RECAP

...

WEDNESDAY RECAP

...

THURSDAY RECAP

...

FRIDAY RECAP

...

SATURDAY RECAP

...

02

Review your district's submissions

Plant Manager Reports and Weekly Plant Efficiency Reports for every plant in your district land in your review queue. Approve, reject with notes, or send back for fixes.

Where: Reports → Review.

1. Open Reports → Review. The queue lists every plant's submissions for the current week.
2. Click into each report. Read the data. Cross-check against what you saw in the field.
3. Approve, or reject with a comment so the PM knows what to fix.
4. Late submissions (red) need a direct conversation, not just a rejection.

Review Queue

8 submissions awaiting your review · current week

Weekly Plant Efficiency Report 407 Conroe · submitted by Mike Davis	Submitted	Open
Plant Manager Report 410 Pearland · submitted by James Cole	Late	Open
Weekly Plant Efficiency Report 408 Houston · submitted by Pat Miller	Approved	Open

03

Watch the Daily Plan emails

Every morning the dispatcher sends a Daily Plan email to each Plant Manager and CCs you. Skim them all — anything that looks off (operator gaps, hours-limit risks, big-pour staffing) call before first load-out.

Where: Your inbox · cc on every plant's plan in your district.

1. Plan emails arrive between 5:00 and 5:30 AM CST.
2. Open each plant's plan. Look for red badges (Hours Limit, late starts, big-pour under-staffing).
3. If something's off, call the dispatcher or PM directly — don't reply-all.
4. If a plant's plan didn't arrive, ping the dispatcher.

Daily Plan · 22 May 2026

4 plants in your district · 4 emails queued

407 Conroe

TO: Mike Davis (Plant Manager)

CC: You (District Manager)

Operators: Carlos Rodriguez, Andre Banks

408 Houston

TO: Pat Miller (Plant Manager)

CC: You (District Manager)

Operators: James Wilson, ...

410 Pearland

TO: James Cole (Plant Manager)

CC: You (District Manager)

Operators: Phil Brown, ...

453 Magnolia

TO: Sarah Lee (Plant Manager)

CC: You (District Manager)

Operators: Devin Hall, ...

04 Run one-on-ones from the task list

Every Plant Manager keeps tasks on the List view. Before a 1:1, pull their open tasks — completed last week, in-flight now, what's stuck. That's your agenda.

Where: List · filter by responsible role = Plant Manager or by plant.

1. Open List. Filter by the PM's plant.
2. Scan the completed-last-week bucket. Acknowledge wins.
3. Scan in-progress. Ask about blockers on anything older than a week.
4. Add follow-up tasks during the call — assigned to either of you.

05

Track plant performance from Statistics

Operations → Statistics has district-wide rollups: Service quality, Customer Satisfaction, Help & Cross-Loading, Operators Loads. Use these weekly to spot trends before the GM report goes out.

Where: Operations → Statistics.

1. Open Operations from Tools, then the Statistics tab.
2. Service tab: who's slipping on late starts or slow pours.
3. Customer Satisfaction: which customers are getting bad experiences.
4. Help & Cross-Loading: which plants are helping vs. dragging.
5. Operators Loads: who is running and who isn't.

Operations · Planner

Today · 22 May 2026 · 4 plants in scope

407 Conroe		3 orders	
06:00	ACME Construction	40 yd³	4 TRUCKS
07:30	Riverside Plaza	24 yd³	3 TRUCKS
09:15	Northwood Apartments	80 yd³	8 TRUCKS

408 Houston		2 orders	
06:30	Bayou Bridges Project	120 yd³	12 TRUCKS
10:45	Eastside Office Tower	36 yd³	4 TRUCKS

06 Stay current on operator changes

Plant Managers update the operator roster, but the changes — new hires, terminations, light-duty moves — affect your district's headcount math. Watch People → Operators across your plants weekly.

Where: People → Operators.

1. Open Operators from the People menu.
2. Filter by your district's plants.
3. Skim status changes since last week (Light Duty / Training / Terminated / Pending Start).
4. Verify the headcount on your General Manager Report matches what's in Tools.

Quick reference

Where things live in the navigation.

REPORTING	Reports	Your DM report + review queue for your district
REPORTING	List	Task list — filter by responsible role or plant for 1:1s
TOOLS	Operations	Daily plan, Schedule, Statistics for your district
PEOPLE	Operators	Operator roster across all your plants
PEOPLE	Managers	Your Plant Managers and other roles

If the app doesn't match this guide

A submission is missing from your review queue → check the missing-reports tab in Reports.

A Plant Manager's reports keep landing late → use the List view to flag a recurring follow-up.

Your district's Statistics rollups look wrong → talk to the dispatcher first; the rollup is downstream of dispatch tickets.
